# Grand Opening in Grand Haven

## ► The wait is over, our newest store is open!

We believe adding a Grand Haven location will help us better serve all of our customers no matter where your business is located. We have implemented technology infrastructure that allows telephone and data (network) connection between the two offices. And we are utilizing a NAS (Network Attached Storage) at both locations that sync with each other. This means we have "off-site" backups built-in to the co-locations. As I've said in the past, you can never have enough backups and this is really cool!

Another "really cool" aspect is our state of the art tech bench. This is a must see! There is a separate "server type" rack that holds the tech bench infrastructure and this is innovative technology. Just like the Coopersville tech bench we are able to put 8 computers on the tech bench at one time and we also have expansion capabilities up to 16 computers. A couple of significant differences are the communication from the computers we are repairing to our shared monitor, keyboard and mouse. It is done through patch cables (much cleaner). When team work is needed, we also have communication to our Coopersville location that allows any of our techs to access any computer on the tech bench. We have also separated the tech bench from our CCS network and from each other, which means if a computer has a bad virus it cannot infect another computer (this is much better than going to your doctors office).

## The main purpose of my article is to invite you to our Grand Opening in Grand Haven.

**From December 14 – 19 we will be having daily store specials, FREE giveaways, some food and an opportunity to see our new digs. We'll also have Jessie Bruce from WGHN doing a Live Broadcast on December 19 from 9 – 11 a.m.**

We would love to see you in downtown Grand Haven and make sure you ask one of the techs to show you the "cool" tech bench.

Give us a call if you are looking to integrate your phone (VOIP) and data (network). It doesn't matter how many offices you want to connect, we can help.

*"Relax...we're on IT"*

From all of us at *CCS Technologies* we want to wish you a *Merry Christmas* and a *Happy New Year*. We also would like to offer you a gift that may help you become more prosperous in 2010.

We have made arrangements with Tony Rubleski (locally and nationally known marketing guru) to send each one of you his monthly newsletter for the first three months of New Year. If you implement only two or three of his ideas from the newsletter I know your business will benefit. Send me an email at [gslater@ccstech.net](mailto:gslater@ccstech.net) and I'll send you his newsletter. Let me know if you would like it in print or in electronic format.

*Thank You* for making 2009 fun and exciting and we look forward to growing together in 2010!

# Merry Christmas
